

"I was blown away by the immediate results and Emilie's professional approach! My jawline was more defined, my brows lifted, and I have the full lips I took for granted 20 years ago. All-natural and no fillers! I'd definitely recommend this and will do it again." – Jenny O.

Vampire Facial

Scary Name with Scary Good Results

By Christian Dischler

Picture yourself looking into the mirror.

You see a new wrinkle or an old scar that feels like a billboard for your age. Your hair looks thin.

You lean in to make sure it's only bad lighting but it's not. Insecurity creeps in.

Everyone gets frustrated with their skin or thinning hair. It's a part of life.

What if there was a natural way you could turn back time on aging? Wouldn't you want to use your body's built-in healing powers to look younger?

Good Morning America called it the 15 minute shortcut to the fountain of youth. Celebrities swear by it. Now you can too.

Vampire Facials provided by Schenck Beauty are the newest beauty trend sweeping the country.

Despite the scary name, a Vampire Facial can give you scary good results. Our blood has platelet-rich plasma (PRP) in it that helps our bodies heal. This plasma encourages new cellular development with stem cells and growth factors. It stimulates collagen growth, cell production and repair. Vampire facials isolate your PRP and apply it to the areas that need those healing powers.

The facial combines these benefits with the FDA approved technology of the SkinPen. It uses controlled micro-needling to activate the body's natural healing process. Then the PRP reinforces your healing capabilities to restore your skin and hair to its youth.

"Our patients are absolutely amazed with the results! It's the safest, most effective way to recapture your youthful look," said Dr. Emilie Schenck, owner of Schenck Beauty.

"The SkinPen is the only device capable of needling deep enough to give a better, younger texture to your

skin. Adding your plasma will maximize those effects for quick and lasting results. Afterwards, using the SkinFuse skincare routine helps keep you looking great!"

No need to hide behind a costume this year. Schenck Beauty will help you feel confident with this all-natural solution. No chemicals or wordy medicines to worry about.

Reduce wrinkles and uneven skin tone. Diminish scars and decrease hyperpigmentation. Restore hair density and lip volume.

It's the natural healing power of your body helping you look young with no risk of allergic reaction.

It's a quick and incredible way to turn back time. Treat yourself today to the newest and best way to stay young.

Schenck Beauty is located inside Rosé Beautique at 200 Greenleaves Blvd. Suite 12. ■

WHAT WILL YOUR *Legacy* BE?

IMAGINE YOUR FAMILY GATHERING AROUND TO WATCH A DOCUMENTARY ABOUT YOU, CREATED BY PROFESSIONAL FILMMAKERS. YOUR LOVED ONES LAUGH AT YOUR STORIES. YOUR MEMORIES AND LIFE LESSONS CONNECT WITH THEM.

By Christian Dischler

Now imagine if that documentary didn't exist.

How will they remember you in a way that isn't frozen in a photograph?

Will your voice become nothing but a memory?

The memories you share from generation to generation define the legacies that you've lived. They're a part of your heritage and sharing those moments with the people closest to you is one of life's greatest joys.

Who will narrate these personal memories if you're not around?

Don't you want your children and grandchildren to see your smile and hear your voice when you tell your life's story?

Chronicle Your Legacy captures your essence and transforms it into an eternal moment to be shared over and over and not forgotten. You'll sit down for a personalized interview and illustrate your story as you weave your family history into a living tapestry.

It's your life's story in your words. A documentary about your legacy that your family can experience long after you've passed on.

Chronicle Your Legacy is a unique way to ensure your heritage lives on forever from your perspective through a professional lens.

"I know how important creating a lasting impression with your family is. When my grandfather passed away, my daughter was just over a year old, and at that moment I realized she would never be able to hear his voice or experience his story. There was regret and I knew that I didn't want to lose that opportunity with my parents, so Chronicle Your Legacy was born," said Armando Leduc, founder and CEO of Leduc Entertainment.

"Interviewing them brought out memories and emotions that neither of us expected. The element of creating the video, asking personal questions and going through old photos was an experience we'll never forget. And now I know my daughter

won't forget it either. It's exciting to think about how we will watch it for the rest of our lives, and she can pass it down to her kids and so on."

Tell your life's work how it's meant to be and share the lessons you've learned with your loved ones.

Your family will be impacted by your memories long after the curtain closes, and your legacy will live on forever.

"They made me feel very comfortable during the interview process. Things flowed very smoothly based off of the questions. I was also very impressed with the editing process. Seeing my life on film with old pictures and video really brought me back to those times. I highly recommend scheduling a Chronicle your Legacy video for you and your family." —Terry Rappold

Leduc Entertainment offers several Chronicle Your Legacy packages to fit anyone's needs. ■
